weather to improve on that of yesterday. racetrack, and the rephyrs from the ocean amply atoned for the sweltering heat of Friday. The attendance was unusually large, even for a Saturday.
The racing card was attractive, and so many wellon racing men were present. At the far turn isuela was done for, and the field closed on the leader in the scram-hie for positions for the run in. Ogden turned for home with the advantage of a length and a half of myight from Ornament, who was the nearest competitor. Lehman and Semper Ego were head and head half a length away. The battle in the stretch brought the specialors to their feel, and

two-year-old fillies, at five furlongs. High Degree, with Sloan in the saddle, endeavored to concede from two to fourteen pounds to her opponents. Whiplash and Caoutchouc were looked upon favorably by the bettors. There was a long delay at the post, which materially affected the chances of High Degree. When the flag fell the race was over, as Whiplash won all the way and finished easily a length and a half in front of Caoutchouc, who heat High Degree four lengths for the place. The third race was a handleap at a mile and three-quarters. It was won by Dutch Skater, who evidently deceived the handleapper in his previous races.

races.

A two-year-old selling race furnished a surprise in Effervencent, who had no trouble to win at the finish by a length from The Gardner, who beat Duke of Baden a head for the place.

The last race witnessed the undoing of the local admirers of cross-country racing. Forget was heavily backed to win the race, but B. F. Clyde, of Philadelphia, upset their plans by winning with Trayant. Forget pulled up lame.

The Realization, to be run lo-morrow, is the principal race for three-year-olds in this country. The trials for the race were run yesterday. Hamburg, who will be ridden by Sioan, galloped a mile and a haif easily in 2.3715. The Huguenot worked in the same time, and is likely to have plenty of support from the professional bettors. Handball had an easy gallop of a mile and a haif in 2.14. Plaudit got a breather in 2.38. Previous, Latson, Boy Orator and Georga Boyd have been raced in public and have not been asked to run a trial. The race has altracted much attention, and is almost certain to prove a highly interesting contest. The last half of the Double Event will give the public a chance to see Jean Beraud, the champion two-year-old, if the weather remains pleasant. There are seven races on the card for to-morrow, including a steeplechase. All the races have an attractive list of entries, at I everybody who desires to witness first-class spot should try to be present. Here are the summaries:

REALIZATION TO BE RUN TO-MORROW.

AN EXCELLENT CARD OFFERED BY THE CONEY ISLAND JOCKET CLUB. An excellent card is offered the public by the Coney Island Jockey Club for to-morrow, the last

day of the June meeting at the Sheepshead Bay track. Seven races are on the programme, two of which are rich stake races. These two are the second part of the Double Event, for two-year-olds,

over the Futurity Course, and the Realization, for The best two-year-olds of the country will run in the Double Event. Among will be seen such good colts as the fleet Jenn Beraud, Kingdon, Ethelbert and Glenheim. Kingdon was the winner of the first part of the Double Event, which was run on June 18. The second colt on that occasion was Armament, an outsider in the betting. Jean Beraut, however, did not start in that race, and thousands are pinning their faith on him to win the second part to-morrow.

In the Realization Stakes, at one mile and five furlongs, will be seen such horses as Marcus Day's peerless \$40,000 Hamburg. The Huguenot and Plaudit, the winner of the Oakley Derby, the Buckeeye Stakes and other rich Western, stakes, Plaudit has not run in the East this season, and it is expected that there will be a mighty struggle hetween him and Hamburg and The Huguenot. With a good card and fine weather the Sheepshead Bay track will be thronged to-morrow by eager thousands. ion was the winner of the first part of the Double iousands.

Here are the full lists of the probable starters in it the races for to-morrow:

visions sailed a triangle having for outer marks the Gangway buoy and the Old Hen buoy at the Chickens reef buoy, the easterly moy off Execution Reef, all marks being left on the starbeard hand, and was sailed three times over by all except the

dorles, which made the circuit ones, a distance of four and one-fourth miles.

When the committee steamer followed the yachts across the Sound it was found at the second busy that the Anoatok had almost caught the Hussar in the class above, and it was not known until after the race that the centreboard of the new boat could not be pushed down, thus spoiling the work of Charles (1) Davis, who was at the wheel. The knockabouts were found working up the Long Island shore, with the Mongoose ahead and the Kenosha second. The Indianoia was they far out in the Sound having run into a lighth air region from which it tack some time to escape. This wrong move apparently cost het the race. The Kenosha crossed her bows seen afterward, and the Senta was apparently last. At the end of the first round the Mongoose had an easy lead, and the Kenosha turned second. As the wind fell lighter these two did better and were the only ones ismed at the finish, when they seemed to have lost the Senta.

did better and were the only ones timed at the finish, when they seemed to have lost the Senita, ewned and safled by Daniel Bacon, and also the Indianolia.

The Wanda, designed for F. T. Bedford, ir., by the Herreshoffs, made another complete runaway from the rest of her twenty-five-foot class, and the Anoatok, in the thirty-six-foot class, came in ahead of the forty-three-foot Hussar. The new twenty-foot sloop Akabo, lately built for Clark A. Miller, distanced the rest of her class by about fourteen minutes, and much interest was taken in the races of the dorless among which the craft of fommodors Janes added another victory to her list.

As the boats crossed the finish line they were tired as follows:

TYNG DEFEATS TRAVIS IN THE SEA-BRIGHT TOURNAMENT.

A FAST MATCH ON THE SEASIDE LINKS-TYNG

tournament down to the final round yesterday. The survivors were Tyng, of Morris County, and Edwards, of Dyker Meadows. They will meet in the finals for the Seabright Cup on Monday. afternoon the club house and grounds were filled with a representative society gathering from the Rumson Road, and the results of the play were watched with enthusiastic interest. Among those who gathered on the lawns were Mrs. William E. Strong, Miss Strong, Mr. and Mrs. J. C. Hoseland, Mrs. Raymond Hoagland, Miss Terrell, Mrs. Mc-Lane Van Inger, Mrs. Edward L. Kalbfielsch, Mrs. A. H. Porter, Miss Porter, Mrs. W. S. P. Prentice and Mrs. H. L. Thornell. A cool breeze from the the previous day, and induced several hundred vis-itors to follow the more important matches from tee to tee. Tyng and Travis were drawn in the afternoon semi-fluals, and, of course, they were the lions of the occasion. The two men had not met since the Orange tournament last fall, and interest ran high as to the probable outcome. Travis seemed to be a warm favorite with the maids and matrons present, for they applauded his good strokes with an enthusiasm that left no doubt

as to where their sympathies lay.

Travis opened by taking the first hole in a capital three. Indifferent play followed on the next two holes. Travis losing the third by missing a two-foot put. Tyng missed a chance to halve the fourth, which left Travis I up. Travis rimmed the cup on the next, which was halved in 5, as was bunkered brassey by Tyng. Travis then laid his was halved in 5. Travis being bunkered on his sec ond, and the first half of the match ended with Travis still 1 up. At this point opinion began to shift in Tyng's favor. Travis showed considerable ties began to tell. The tenth hole was halved in 4, and then Tyng took three straight holes in quick succession. This lead Travis failed to overcome, and Tyng was the final winner by 1 up. It was regarded as a feather in his cap, for Travis has won in every other tournament in which he has

Tyng

In the morning round Tyng disposed of Menzles, of St. Andrews, by 2 up and 1 to play, while of St. Andrews, by 2 up and 1 to play, while Travis took his match with young Reid, of Yale, in the same round by 3 up and 2 to play. Edwards and H. K. Toler had a hot and spirited contest in their semi-final round, which resulted in Edwards's favor only after twenty-one holes.

In the consolation contest there was plenty of energetic play. Vanderpool, of Princeton, who is the Morris County champion, beat Cockrane, of Ardsley, after nineteen holes in the second round, and later followed up his success by taking the semifinal match from Gunther, of Westbrook, Morten and Taylor, the Crescent golfers, also had an exciting time. It was not until twenty holes had been played that Taylor won. The cards are worth noting:

the Shinnecock Hills Golf Club was played over the links of that club yesterday. This cup is to be played for every Saturday in July and August, this match is played without handicaps there were few entries, and the committee arranged a handifew entries, and the committee arranged a handicap match open to guests, as well as members and subscribers of the club. This arrangement proved a success, for although there were only ten entries for the challenge cup there were twenty-five for the combined match. Four of the latter withdrew. In the results of this match A. B. Claffin was the contestant among the members and subscribers, who made the best gross score. He was rewarded with one win for the challenge cup. R. P. NEW WORLD'S RECORDS FROM ONE TO FIFTEEN MILES-MICHAEL'S MISHAPS. Boston, July 2.-All world's records from one to

Boston, July 2.—All world's records from one to fifteen miles, inclusive, took a sudden drop at the Charles River Park this afternoon, when "Eddie" McDuffee, of Boston, defeated "Jimmie" Michael, the tiny cyclist, who has long held the title of champion of the world.

The race might have had a different ending but for an accident which befell Michael early in the race, while in the lead, when his handlebars became loose and he was forced to leave the track for another machine, which proved to be in little better condition than the other. McDuffee gained a full lap during the transfer, and as Michael could do nothing with his new machine he left the track, coming on again after the machine had been repaired, but not in any sense as a competitor. He rode in all six and two-thirds miles.

McDuffee continued to red off the miles during all this time, cutting record after record until, at the end of the fifteenth mile and the race, he was 20-25-5 seconds better than the world's record, held by himself.

The most interesting of the preliminary contests was the five-mile pursuit race, between the Tiger Roadsters and the Cambridgeport Cycle Club. It was neck and neck the entire distance, and the Second.

manner which would not be particularly attractive to the majority of mankind. Still, the members of the party seemed to think they were going to have some royal sport in riding four consecutive centuries between last night and Monday night at 6 o'clock. The run was held under the auspices of the New-York State Division of the Century Road Club, and the start was made from the Bedford Rest, Brooklyn, at 7 p. m. The course is over the macadam roads of the south side of Long Island, and the riders will finish a century every tweave hours at Bedford Rest.

There were three women among the starters, and all were confident that they would accomplish the 400 miles, providing they did not meet with accident. They were Mrs. Van Kleep, Miss Williams and Mrs. Frederickson. They have been in long rides before. The party is in charge of Cluny M. Henderson, the secretary-treasurer of the club. Parkins, of Jersey City, Evans of the Time Wheelmen, of Philadelphia, and Robertson, of Washington, are the principal pacemakers.

There were two riders who thought that 400 miles was not enough for them, and they decided yesterday morning to ride a preliminary 100 miles as a sort of preparatory measure to get their muscles limbered up for the longer run to follow. They were Messrs. Parkins and Opdyke, and they propose to make 500 miles. The riders will be checked off at the end of each century. It is not expected that more than a third of the starters will finish the 400 miles.
